How the monthly plan works

1 Paid at the start of the month
Pay the full amount before your first session. No deposit needed.

2 Hours don't roll over
Unused hours end with the month, so book all your sessions early.

3 Missed sessions count
Need to move a session? Give at least 24 hours' notice. A no-show uses up that session.

4 No per-song limit
The two-sessions-per-song rule doesn't apply. Spend your hours however you want.

5 Need more time?
Book extra sessions at the single-session rates on page 1.

6 Same royalty choice
Option 1 keeps 100% of your royalties. Option 2 gives J Mendez 10% of the master on songs from that month.

02 HOW IT WORKS

These rules are for single sessions. The monthly plan has its own (page 2).

Every session includes (all plans)

- Full studio & equipment access
- Engineered personally by J Mendez
- Vocal recording & comping
- Rough mix before you leave
- Treated booth & full monitoring

1 Two sessions per song

Each song gets two sessions at your rate. If a song needs a third session, that one is the regular price ($300).

2 $60 deposit when you book

It counts toward your session. If you cancel or don't show, the deposit isn't refunded.

3 A rate just for you

This rate isn't on the website. Please keep it between us.

4 We put it in writing

Before your next session, we'll sign a short agreement that lists the option you picked.

03 FINISHING SONGS FASTER

No writing needed. Less time figuring out what to say, more time recording.

1 Pick the concept first

Choose the beat, a title or topic, and a reference track before you come in. Deciding what the song is about takes the most time.

2 Voice memos at home

You'll get the beat a few days early. Freestyle into your phone and send the memos, so you show up already knowing your flow and hook.

3 Hook first, always

We lock the hook before starting verses. The hook sets the topic, and the verses go faster after it.

4 Freestyle, comp, punch

Freestyle 4–6 passes over the loop. J Mendez keeps every take and comps your best lines, then you punch in to fill the gaps.

5 One song at a time

We finish a full rough before starting a new song, and you leave every session with a rough mix.

→ **A typical session:** concept and voice memos are done before you arrive → hook (first hour) → freestyle passes for verse 1 → punch-ins → verse 2 → rough mix before you leave.

HOW THE ROYALTY SHARE WORKS

Only if you pick Option 2. With Option 1, there's nothing to set up.

Single sessions
$165 per session

Monthly plan
$475 per month

Master royalties on songs recorded under Option 2. You J Mendez

? What it covers

The money the recording earns from streams and sales, paid out by your distributor. Only songs recorded under Option 2.

✓ Your songwriting stays yours

The share only comes out of the master. Your songwriting and publishing share isn't affected.

$ Paid automatically

Add J Mendez on your distributor's splits feature (DistroKid, TuneCore and others have one). Each share pays out on its own, so nobody has to chase anybody.

∞ It stays with the song

The share stays with those songs for as long as they earn, including if you sign to a label later.
